tion line is a natural outgrowth of its distribution agreements. 'Since we will be selling both Tor and Bluejay, it's suddenly economically feasible (and necessary) to visit the specialty stores and others with a large science fiction list. We've bought Fred Pohl's sequel to **THE SPACE MERCHANTS** as well as the original book. We plan to publish both the hardcover and paperback editions.'

The new distribution plan for Tor only affects direct sales. The independent market (the larger part of sales) will still be serviced by Warner Distributing, which also handles Ballantine, Del Rey, Warner, and Pinnacle. Warner will do the ID distribution for the new St. Martin's mass market paperbacks. Tor has always had excellent ID sales but lower than usual direct (bookstore) sales because Pinnacle only had four direct salesmen. St. Martin's has fifteen and plans to add more in the next year.

St. Martin's entry into mass market publishing came about when they could not get a reasonable offer for paperback rights to a book by G. Gordon Liddy. They published the mass market paperback themselves and distributed the book through Dell. It turned out to be a bestseller.

The line between publishers and distributors has become very grey. Carroll and Graf, a hardcover house, could not get the auction price they wanted for a novel, **GARDENS OF STONE** by Nicholas Profitt. They decided to do their own mass market paperback and handle their own direct sales. The ID distribution rights went to a new 'distributor' -- Tor Books.
